CapitalValue Advisors Represents LDIS, LLC in its Acquisition by Tetra Tech, Inc.

Denver (2019) – CapitalValue Advisors (“CVA”) is pleased to announce the acquisition of LDIS, LLC (“LDIS”) by Tetra Tech, Inc. (“Tetra Tech”).

Ben, Dawn, and the entire team at LDIS have built a top-notch design and engineering firm serving the oil and gas market. It was an absolute privilege to work with Ben and Dawn and find a partner in Tetra Tech that will support the LDIS team as they continue their expansion efforts,” said Danny Parkinson, CVA Vice President.

As we began our search for a buyer, CVA was recommended to us by a mutual contact. We couldn’t have had a better recommendation! During this process, Danny and his team at CVA went far above and beyond to support our goal and needs. Dawn and I couldn’t have been more pleased with their knowledge, understanding and patience with us during this process. Having CVA on our side the entire time made us understand how important it is to have a team like them representing us. Danny, John and Cam were professional, they listened and most of all, performed above our expectations. We feel like they cared for our needs and concerns and we look forward to having a lasting relationship with CVA,” said Ben Schwenk, founder of LDIS.

Founded in 2003 by Ben and Dawn Schwenk as a design firm for the oil and gas industry, LDIS has added engineering and supplementary services to become an irreplaceable partner for its customer base. Today, the company employs more than 90 professionals providing design and engineering services within all major disciplines and a variety of related supplementary services primarily to midstream oil and gas companies across all major US basins.

Tetra Tech is a global leader in consulting, engineering, program management, and technical services with origins dating back to 1966. The company was originally founded to conduct theoretical research and applied science in the areas of water, hydrodynamics, and coastal engineering. Tetra Tech differentiates itself by “Leading with Science®.” The company’s involvement in projects typically begins at the earliest stages of the project life cycle. Tetra Tech offers its clients industry leading services by studying complex problems and applying the latest scientific tools and methodologies. With over 18,000 staff and more than 400 offices worldwide, Tetra Tech supports commercial and government clients focused on the water, environment, infrastructure, resource management, and energy markets.

The transaction closed on April 1, 2019. Sherman & Howard LLC served as legal counsel to LDIS.
